

A Better Way To Wash!

ELITEPRO
Self Serve Systems

Powerful Performance that adds value to your Self-Serve Car Wash Bay!

The Elite Pro was designed with emphasis on the consumer experience in the self-serve wash bay. With advanced control over delivery pressure across all functions, integrated chemical solution tanks promotes consistent cleaning results, reduced system components offer simplicity of use and reduced maintenance. The easily serviced, compact, integrated design makes the Elite Pro perfect for any upgrade or building a new wash. Today's market demands value, Elite Pro delivers value, retains customers, attracts new customers and in turn will grow your business!
