HYDRO SPRAY

HYDRO-SPRAY

BUILT BY OPERATORS, FOR OPERATORS

The all new Elite Plus Self-Serve System is the latest innovation from Hydro-Spray combining more than 30 years of car wash knowledge with the newest technology available today. The unique design of the Elite Plus does not require holding tanks or multiple delivery pumps. Its advanced direct inject delivery system and common pump promises a consistent multipressure delivery of all services to the wash bay. The compact, plug-and-play design makes installation as simple as a commercial kitchen appliance, removing the need for complicated and unreliable backroom engineering. High-quality, modular components increase serviceability and makes maintenance a breeze, reducing your downtime and keeping your bays open. The robust features available in the Elite Plus gives operators unprecedented control over their washes to offer their customers unique tools such as an optional self-serve underbody cleaning tool - which is perfect for driving traffic in four-season climates. For operators looking to differentiate themselves from the competition, the Elite Plus is engineered to offer unparalleled performance and a unique, consistent customer experience.

FEATURES:

One Bay/One Pump Design

- Compact Modular Frame
- Welded 304 Stainless
- Service Friendly
- NEMA 4 Metal Enclosure
- Plug & Play Factory Tested

Inverter Rated Electric Motor

- Worldwide 5HP/3 Phase
- Direct Drive
- VFD Driven

Platinum Series General Pump

- Model PEHT201 OS
- Pulsation Dampener
- Pressure Gauge

Eaton PLC Controlled

- Customizable Settings
- Network Ready
- Remote Access Ready
- Temp Card Ready
- Simple 1/0 Operation
- SD Card Compatible

Down Stream Chemical Injection

- Features Rocket Injectors
- Controlled Delivery
- Precise Chemical Metering
- Enhanced Foaming Applications
- Tankless Design

Integrated Weep or Blow Down

- Select Weep Water
- Select Blow Down

Integrated Air Assist

- 3 Independent Air Settings
- Smart Air Regulator

Operator Panel

- Bay Lock Out
- Bay Wash Down
- Maintenance Time/ Alert
- Wash Counter Reset

Multi-Pressure Applications

- Rinse
- Spot-Free Rinse
- Foaming Pre-Soak
- Foaming Wheel & Tire
- Foaming Bug & Tar
- Foaming Wax
- Foaming Protectant
- Foaming Brush

SPECIFICATIONS:

Electrical

- 230V / 3HP/60Hz/13.6A
- 20A Circuit Breaker

Water

- Hot Inlet 3/4" NPT
- SGPM per unit
- 40-60 PSI Regulated
- Max. Temp. 130F
- Cold Inlet 3/4" NPT
- SGPM per unit
- 40-60 PSI Regulated
- Spot-Free Inlet 3/4" NPT
- 1-3GPM per unit
- 40-60 PSI Regulated
- Can be gravity supplied

Compressed Air

- Inlet 3/8"OD Polyflow
- 3-SCFM per unit
- 80 PSI Max. per unit

Dimensions

- 24"x28"x68" (WxDxH)

OPTIONS:

Multi Pressure Pumps

- General Pump
- CAT Pump
- Giant Pump

Controls

- Temperature Control Card
- Network Remote Access
- Inlet Water Supply Regulators

Multi Pressure Delivery

- High Pressure Soap
- High Pressure Wax
