

PURWATER™

WATER RECOVERY SYSTEMS

ENVIRONMENTAL STEWARDSHIP THROUGH INNOVATIVE ENGINEERING TECHNOLOGIES

DIMENSIONS:
48" WIDE X 84" TALL X 16" DEEP

FEATURES –

- Compact skid design – requires minimal footprint
- Dramatically reduces water/sewer costs - save as much as 85% / Increase your Bottom Line
- Totally automatic operation – through an engineered PLC and variable frequency driven pump
- HMI Controller (Human Machine Interface) – user-friendly operating platform that monitors - provides system feedback projected on externally mounted screen for easy viewing
- Patent pending Succession Technology – consistently provides the targeted wash with an engineering certified 5 micron quality wash water and eliminates expensive disposable filters
- Uniquely engineered ozone injection system - eliminates odor typically associated with water recovery
- Self-priming pump - can easily be connected to underground tanks
- Pre-wired / pre-plumbed – designed for easy installation / new construction or retro-fit
- Minimal maintenance required – automated self flushing underflow orifice
- Engineered and manufactured in the U.S.A.
- ETL Listed

PURWATER™

WATER RECOVERY SYSTEMS

PURWATER RECOMMENDED TANKING AND PLUMBING DESIGN

MULTIPLE MODELS AVAILABLE TO MEET YOUR SPECIFIC NEEDS

PURWATER 100 FS5 WATER RECOVERY SYSTEM

- FS Series is designed specifically to meet the requirements for Auto Dealer / Fleet automatic wash application
- Consistently provides high quality 70-Micron wash water on demand and effectively controls odor with patent pending Air Sparger technology
- Minimal footprint – 48" x 54" x 21"
- Made in The USA
- ETL Approved

PURWATER XTREME WATER RECOVERY SYSTEM

- Attractive fiberglass cabinet prolongs component life - designed to withstand the harsh environment of a wash bay
- Human-Machine Interface Technology – totally automatic operation, minimal maintenance required, reduces cost of ownership
- Requires minimal footprint
- Made in the USA
- ETL Approved

PURWATER AQUALINK AOS SYSTEM

- Advanced Oxidation System – enhanced water clarity
- Designed for ease of installation – new construction or retro-fit for an existing wash site
- Provides 24/7 water filtration and eliminates odor typically associated with reclaiming wash water
- Significantly reduces surfactants, BOD, complies with local municipal requirements
- Made in the USA
- ETL Approved
